About:

I have 5,5 years of university experience in software development; more than 2 years of experience as front-end developer (more than 2 years of experience in HTML, CSS; more than 1 year of experience in JavaScript); 5 refresher courses, webinars, trainings.

You need me, if you want to grow your company. You will acquire responsible, diligent specialist and, at the same time, friendly, cheerful person in your team.

You need me, because I have a great desire to develop, I'm very motivated, and most importantly, I love what I do!

I will help your company grow by working on your projects. And if you play chess, I will beat you.

Work experience:

2014 – 2019	Course works, bachelor's and master's graduation projects
September 2018 – January 2019	Front-end developer in Ltd. «Devitis» – development of company's website, development of layouts and the client part of the project "Automated accounting system marked underground communications"
2018 – 2020	Projects for refresher courses
October 2019 – May 2020	Freelance Web developer – fix projects
